**INTRODUCING THE WORLD'S FIRST HEALTH AND BEAUTY SYSTEM FOR DOGS**

Formulated by a British chemist over 20 years ago, the Isle of Dogs grooming system captures the extraordinary cell hydration power of Evening Primrose Oil. Featuring a revolutionary mixing process which suspends extraordinarily high levels of pure cold-pressed Evening Primrose Oil in every molecule of the water-based solution, the shampoos are able to deliver high levels of essential fatty acids deep into the skin. Skin is miraculously hydrated; hair is shinier and softer than ever before. Say goodbye to dry skin and dull hair.
